

Wish 'Em All Away

Embrace

Stars are wheeling in the sky, I guard the last of my line
Like a sleeping army I will wait
So drum the devils out your dreams and send them all to meet me
I will lay me down until you're safe So you'll have nothing to face
Close your eyes and wish 'em all
Wish 'em all, wish 'em all, wish 'em all away
And everything will change Though the last of your defense would crumble at the first test
I will stop it all from happening
Tomorrow you will rise and sing and never want for anything at all
I will bring, I will bring No you'll have nothing to face
Close your eyes and wish 'em all
Wish 'em all, wish 'em all, wish 'em all away
And everything will change
Close your eyes and wish 'em all
Wish 'em all, wish 'em all, wish 'em all away Now if you look how you fight
Standing in a line, just understand you're safe
Understand that everything will change If you just, wish 'em all, wish 'em all
Wish 'em all, wish 'em all away
Everything will change, understand
I wish 'em all, wish 'em all
Wish 'em all, wish 'em all away
Wish 'em all away, wish 'em all away
Wish 'em all away, wish 'em all away
