

# Now Or Never

Mya

I've seen the rest before  
And I've settled for less before  
An offer so much more  
Has been knocking upon my door Don't hesitate or so I've heard that  
Eventually you'll quit waiting for me  
Since I know we both belong in arms in crazy love  
I gotta open up before you leave Baby it's time to get up on track  
And give it all back to you  
I know you really love me  
You're always there for me  
Baby it's time to get up on track  
And give it all back to you  
I could lose you forever  
And it's now or never Oh no, oh no, oh no, oh no We spend the entire day  
How you always knew what to say, ooh  
You never asked to stay and I can't believe I couldn't see  
Gotta open up before you leave me lonely Baby it's time to get up on track  
And give it all back to you  
I know you really love me  
You're always there for me  
Baby it's time to get up on track  
And give it all back to you  
I could lose you forever  
It's now or never Oh no, oh no, oh no, oh no  
Now or never  
Oh no, oh no, oh no, oh no I know we both belong in arms  
I know it's crazy love  
I know we both belong in arms  
I know it's crazy love, it's crazy love Baby it's time to get up on track  
And give it all back to you  
I know you really love me  
You're always there for me  
Baby it's time to get up on track  
And give it all back to you  
I could lose you forever  
It's now or never Baby it's time to get up on track  
And give it all back to you  
I know you really love me  
You're always there for me

Baby it's time to get up on track  
And give it all back to you  
I could lose you forever  
It's now or never I know we both belong in arms  
I know it's crazy love  
I know we both belong in arms  
I know it's crazy love, it's crazy love
