

Let's Dance

VenueConnection

I just wanna feel your waves, diving into my soul
I just wanna dance until I lose control
Gimme some good sounds, gimme some more
This groove turns me on, so hard I just can't stop
My feet keep moving on, on and on and on
Gimme some bass lines, gimme some more

Let's dance, let's jump
Let's fly away high in the sky
Get some air, move your hips
Forget your pain, feel the beat
You gotta hold on cause we'll dance the night away

Let's dive into the pool of grooves
Music and us, feeling the sound
Dance floor is hot, just shake, come on!
Don't stop, keep on moving, play the next song

I'm dying to start, to feel you by my side
I hope you stay with me cause you make me feel alive
Let's meet at home tonight, or see you at the club
I hope we are together, you and I will make it right

You're the motion of my soul, my way of life, my heart
You make me feel on a natural high
Gimme some good sounds, gimme some more

Let's dance, let's jump
Let's fly away high in the sky
Get some air, move your hips
Forget your pain, feel the beat
You gotta hold on cause we'll dance the night away

Let's dive into the pool of grooves
Music and us, feeling the sound
Dance floor is hot, just shake, come on!
Don't stop, keep on moving, play the next song
