

# Little Black Train

Carlene Carter

There's a little black train a-comin',  
Set your business right  
There's a little black train a-comin'  
And it may be here tonight Go tell that ballroom lady  
All dressed in the worldly pride  
That death's dark train is comin'  
Prepare to take a ride God sent to Hezekiah  
A message from on high  
You'd better set your house in order  
'For you must surely die He turned to the wall and, weeping  
We see him hear in tears  
He got his business fixed all right  
God spared him fifteen years There's a little black train a-comin',  
Set your business right  
There's a little black train a-comin'  
And it may be here tonight See that train with engine?  
And one small baggage car  
Your idle thoughts and wicked deeds  
Will stop at the judgment bar Oh, the man in darkness  
Cares not for the gospel light  
Till he suddenly heard the whistle blow  
With the little black train in sight There's a little black train a-comin',  
Set your business right  
There's a little black train a-comin'  
And it may be here tonight
