

Where Did the Party Go

Fall Out Boy

Na na na na na na
Na na na naI'm here to collect your heart
It's the only reason that I sing
I don't believe a word you say
But I cant stop listeningThis is the story of how they met
Her picture was on the back of a pack of cigarettes
And when she touched him he turned ruby red
A story that they'll never forget
Never forgetAnd all the boys are smoking menthols
Girls are getting back rubs
I will drift to you if you make yourself shake fast enoughMy old aches become new again
My old friends become exes againWhoa where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Ooh, where did the party go?Na na na na na na
Na na na naI know I expect too much
And not enough all at once
You know I only wanted fun
And you got me all fucked up
On loveOh I hoped for your name on the ouija board
And your making
magic oh dear lord
You and me are the difference between real love
And the love on TV
Love on tvAnd all the boys are smoking menthols
Girls are getting back rubs
I will drift to you if you make yourself shake fast enoughMy old aches become new again
My old friends become exes againWoah where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Ooh, where did the party go?Na na na na na na
Na na na naAll the kids who screamed we weren't the same
In sweaty rooms
Now we're doomed to organising walk in closets like tombsSilent film stars stuck in talking cinema light
So let's fade away together one dream at a timeNa na na na na na
Na na na naWhoa where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Ooh, where did the party go?Na na na na na na

Na na na na
Na na na na na na
Na na na na
