

Calling the World

Rooney

I remember when you told me
"Do what you want, do what you want, baby"
I can't get you out of my head
You're everywhere and everyone I'm calling the world
Calling everyone
I'm calling the world
Calling everyone for you, for you Then you ran off in a hurry
Where did you go, I haven't seen you since Friday
I've been wasting all of my time
Worrying about you everyday I'm calling the world
Calling everyone
I'm calling the world
Calling everyone for you, for you I called your best friend
And your little brother
But they didn't want to talk
They said you changed your locks I called every number
In the phone book
But everybody lied
They said you wanna, you wanna hide Calling the world
Calling everyone
I'm calling the world
Calling everyone Calling the world
Calling everyone
I'm calling the world
Calling everyone for you, for you I'm calling the world
I'm calling the world
I'm calling the world
For you, for you Everybody
Everybody
