Beautiful Love

The Afters

Far away, I feel your beating heart
All alone, beneath the crystal stars
Staring into space, what a lonely face
I'll try to find my place with you

[chorus]
What a beautiful smile
Can I stay for awhile?
On this beautiful night
We'll make everything right
My beautiful love, my beautiful love

Larger than the moon, my love for you
Worlds collide as heaven pulls us through
The secret of the world is written in the stars
I'm carrying your heart in mine

[chorus]
What a beautiful smile
Can I stay for awhile?
On this beautiful night
We'll make everything right
My beautiful love

Maybe a greater thing will happen
Maybe all will see
Maybe our love will catch like fire
As it burns through me
[3x]

[chorus]

What a beautiful smile
Can I stay for awhile?
On this beautiful night
We'll make everything right
[2x]

My beautiful love
La la la la love

La la la la love

My beautiful
La la la la love
La la la la love

My beautiful love
