

Southern Dreaming

The Sheepdogs

I've looked on down, now baby it looks nice
You don't have to tell me more than once or twice I've kept all the things, you found my walking shoes
I found out a way to rig it so I can't lose Now I said darling
Would you keep on pushing?
Would you keep on riding?
All you love is down
But I can't leave town
No, I guess I'll spend my days
Southern dreaming I fight through this haze, baby
Fight through the malaise
I'll live down there til my dying days I see when I sleep, baby, through my dreams
That I've read in the pages of books and magazines Now I said darling
Would you keep on pushing?
Would you keep on riding?
All you love is down
But I can't leave town
No, I guess I'll spend my days
Southern dreaming
Now I said darling
Would you keep on pushing?
Would you keep on riding?
All you love is down
But I can't leave town
No, I guess I'll spend my days
Southern dreaming
