Come on come on and do the fly with me
Hey come on everybody and do the fly with me
Well if you don't know how to do it
Just watch and see You've gotta shake your hands all around and around the sky
And then you buzz around the floor
You can do it if you really try
All the girls and guys are getting the [] there're gonna fly Oh you pretty little girl come and fly away with me
Hey pretty little girl fly away with me
We're gonna fly to the sky
But you mustn't fly away from me
Oh Yeah Hey***Break***Don't cha know
You've gotta shake your hands all around and around the sky
And then you buzz around the floor
You can do it if you really try
All the girls and guys are getting the [] there're gonna fly

Hey come on everybody and do the fly with me
Well if you don't know how to do it
