

# Back To The Future

## Hot Chip

I went back to the future just to see what we could be  
Hopped in my car and drove around the galaxy  
It turns out I tripped and fell under your spell  
Well, maybe it's chemistry  
Hey, what's up today?  
Let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy  
With all I'm spinning around  
Let's go back to the future now  
Picked up my phone to see if you were texting me  
You said, "Get out of bed, let's take a ride  
Inside my time machine" and I said  
Hey, what's up today?  
Let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy  
With all I'm spinning around  
Let's go back to the future now  
Hey, what's up today?  
Let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy  
With all I'm spinning around  
Let's go back to the future now  
Hey, what's up today?

What's up today?  
What's up today?  
What's up today?  
What's up today?  
What's up today?  
What's up today?  
It's been a minute now without you  
Wasting my time thinking about you  
'Cause time flies but so do I  
Come on inside and take a ride back in time  
Hey, what's up today?  
What's up?  
Hey, what's up today?  
Let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy

With all I'm spinning around  
Let's go back to the future now  
Hey, what's up today?  
Let's press rewind hop in my time machine  
'Cause I'm getting kinda dizzy  
With all I'm spinning around  
Let's go back to the future now
