The World Is In My Hands

Cascada

The world is in my hands
I'm ready to go my way
Tomorrow is not today
So take the chance
Singing woah oh ohThe sky is not the end
I'm ready to make a change
To give me one more dance
Is not too late
The world is in my handsTonight singing woah, oh, oh
The sky is not the end
I'm ready to make a change
So give me one more dance
Is not too lateThe world is in mineÂ Just let it go
Make it a night to remember, to remember
The simple beat of my heart
Tells me it's now or never'Cause it ain't over tonight
Till it's over
I will keep this dream alive
Till the end
Now the world is in my handsThe world is in my hands
I'm ready to go my way
Tomorrow is not today
So take the chance
Singing woah oh ohThe sky is not the end
I'm ready to make a change
So give me one more dance
Is not too late
The world is in my handsIt's inside of who we are
We could ride the sky
On a shooting star
We have just begun
The world is in my hands
We have just begunThe world is in my handsI will keep this dream alive
The sky is not the end
I'm ready to make a change
So give me one more dance
It's not too late
The world is in my hands
