

# Redshift Riders

**Joe Satriani**

I know some people like to take life easy,  
That's not my style.  
I'm not the type to let this life tease me,  
I'm gonna make it wild. I just wanna ride,  
Get on my bike and ride. Some people think you've got to like your life one way,  
I disagree.  
I'm not gonna pay attention to them anyway,  
It's got nothing, nothing to do with me. Life is so short, we've got  
No time to waste at all. CHORUS:  
I just wanna ride,  
Get on my bike and ride.  
I just wanna ride,  
Get on my bike and ride. I see the road, as it opens up before me,  
I feel the heat.  
I'm gonna go where I want, when I want to.  
I've got to be free. CHORUS Feels so right...  
Feels so right
