Gate 49

Stiff Little Fingers

When I'm away I think of you
And how you were an ought to be
And there's one thing I got to do
Get back to you to be free, to be me'Cause any time I don't like it
I keep a doorway in my mind
When I want to be with you
I just walk through gate 49It gets me down, it makes me sick
To be somewhere I hate to be
So I'll escape, I'll take a trip
I'll fly so high to be free, to be me'Cause any time I don't like it
I keep a doorway in my mind
When I want to be with you
I just walk through gate 49Just for a time no miles away
I can't put up with what must be
And pretty soon I'll have to take my walk way
Out to be free, to be meI may be tired of life itself
But here comes me I like it somewhere elseWhen I'm away I think of you
And how you were an ought to be
And there's one thing I got to do
Get back to you to be free, to be meWhere I'm mine just behind gate 49
