

# Best Of Times

Peter Cetera

Things get bad and times get tough  
Everybody knows you gotta be a little stronger  
Just to have the things you need  
Everybody knows if you try a little harder  
You're gonna live a whole lot longer  
Had enough of burnin' up the midnight hour  
Going out and stayin' far too long  
You got to believe in something  
Got to believe, when you believe in something  
These are the best of times  
You got to have faith in someone  
Got to have faith, when you have faith in someone  
These are the best of times  
Don't give up, can't give in, never lose a minute  
It's a long hard road back from nowhere  
Love is not what you take out, it's what you put back in it  
Take your chance, there's no doubt  
Everything will all work out  
Had enough of burnin' up the midnight hour  
Going out and stayin' far too long, yeah  
You got to believe in something  
Got to believe, when you believe in something  
These are the best of times

You got to have faith in someone  
Got to have faith, when you have faith in someone  
These are the best of times  
See my way, I know where I'm goin'  
I know, I'd never think that I'd ever give up  
I want it all as soon as I can do it alright  
Right where I am  
See my way, I know where I'm goin'  
I know, I'd never think that I'd ever give up  
I want it all as soon as I can do it alright  
Right where I am  
You got to believe in something  
Got to believe, when you believe in something  
These are the best of times  
You got to have faith in someone

Got to have faith, when you have faith in someone  
These are the best of times  
You got to believe in something  
Got to believe, when you believe in something  
These are the best of times  
You got to have faith in someone  
Got to have faith, when you have faith in someone  
These are the best of times
