

# I Love It

[Craig Morgan](#)

Here she comes two hours late  
But that girls always worth the wait  
Yeah, and I love itShe's got a tiny shirt on wrong side out  
She makes left to center seem right somehow  
Oh, and I love itShe's got a way  
Of being nonchalant  
Kinda quirky, everything I'm notShe's so un-ordinary  
So unpredictable, it's scary  
And I think I've got more  
Than what I bargained forBut I keep coming  
Back for more of it  
'Cuz I love itShe's got two tattoos  
One's on her back  
And I ain't sayin' where the other ones at  
Yeah, but I love itShe don't own a dress  
But she's a beauty queen  
Takes glamor shots in cut off jeans  
And I love itBut if there's one thing  
That I love the most  
It's how she does exactly  
What I think she won'tShe's so un-ordinary  
So unpredictable, it's scary  
And I think I've got more  
Than what I bargained forBut I keep coming  
Back for more of it  
Oh, 'cuz I love itShe's so un-ordinary  
So unpredictable, it's scary  
Oh, and I think I've got more  
Than what I bargained forBut I keep coming  
Back for more of it  
And I love it, yeah, I love it
