My Night to Howl

Lorrie Morgan

There's a good time moon on the rise tonight
I can hear the call of the city lights
There's a time to work and a time to play
I've worked all I'm gonna work today
Ain't no stopping me now it's my night to howlThis is my night to set this town a-rocking on it's heels
This is my night to go crazy just to see how it feels
I'm gonna dress up, gonna let my hair down
Like a wild cat on the prowl
This is my, my, my night to howlTurn me loose, I'm a dancing fool
That band's got a bass drum that kicks like a country mule
When the town shuts down and it's time to go
I'm gonna take this party home
Ain't no stopping me now it's my night to howlThis is my night to set this town a-rocking on it's heels
This is my night to go crazy just to see how it feels
I'm gonna dress up, gonna let my hair down
Like a wild cat on the prowl
This is my, my, my night to howlThis is my night to set this town a-rocking on it's heels
This is my night to go crazy just to see how it feels
I'm gonna dress up, gonna let my hair down
Like a wild cat on the prowl
This is my, my, my night to howl
