

Supernaturally (feat. Yasmin)

Preditah

This feeling 'bout you ain't so sudden
I can't shake it as much as I'm trying to
You got my temperature rising
You make it hard for a sister to keep her cool
You got me over about you
It's so strong
And it's pulling me closer in
I can't keep myself around you
I got to let go cause I'm sinking in
Uh, boy you got something that I like
Sit ready in the passenger side,
I'll be there when you call anytime
Anytime

The way you makin' me feel, supernaturally
Supernaturally

I can't stand it, when you're out of vision
You got me nervous,
I want you all to myself
I make you a proposition
Let me show you
You don't need nobody else
You got this over about you
It's so strong

And it's pulling me closer in
I can't keep myself around you
I got to let go and baby, I'm sinking in
Uh, boy you got something that I like
Set ready in the passenger side,
I'll be there when you call anytime
Anytime

And, uh boy,

The way you makin' me feel, supernatural
Supernaturally
Supernaturally
Supernaturally
Supernaturally
Supernaturally

The way you makin' me feel, supernaturally
Supernaturally

Uh boy you got something that I like
Set ready in the passenger side,
I'll be there when you call anytime
Anytime

The way you makin' me feel, supernaturally
Supernaturally

Uh boy you got something that I like
Set ready in the passenger side,
I'll be there when you call anytime
Anytime

Uh boy, the way you makin' me feel, supernaturally
Supernaturally
