

Revolution

UFO

Love lies bleeding, from the east now to the west
I'm waiting to put your loving to the test I need to know, I need to give
I need to feel to breathe and live
I'm cutting loose and I'm breaking out
I'm goin' to leave you, baby in no doubt 'cause This will be my own revolution
With a burning flag held high
I will make my own constitution
Till the day I die Sensations in every move that you ever make
Revelations what you now give you can't take I need to know, I need to give
I need to feel to breathe and live
I'm cutting loose and I'm breaking out
I'm goin' to leave you baby in no doubt 'cause This will be my own revolution
With a burning flag held high
I will make my own constitution
Till the day I die If hell is to give, I'm wondering what I'm going to do
And I just couldn't see, oh, and how
My feelings run hot and I just couldn't stop now This will be my own revolution
With a burning flag held high
I will make my own constitution
Till the day I die This will be my own revolution
With a burning flag held high
I will make my own constitution
Till the day I die This will be my own revolution
With a burning flag held high
I will make my own constitution
Till the day I die Till the day I die
Till the day I die
Till the day I die
