Reckless Kelly

Turn on the AM, it's a catchy cliché
From a guy in a black hat and a new day
Turn it off again go find the fourth one
From an old band it was so real.

Before my time but I don't mind, no
'Cause he'll take the fall after all is said and done
No, you won't recall his name, it'll be like he never came
And all the things he had to say will be washed away.

Some day all alone lookin' back on all that he's done
Hey some day, some day when it's not like before
Well he'll search the AM for the catchy songs
That nobody plays anymore.

While the old band before his time
Plays loud and clear for the five hundredth time.
Yeah, he'll take the fall after all is said and done
No, you won't recall his name it'll be like he never came.

And all the things he had to say
Will be washed away. yeah, yeah.

And all the things he had to say
Will be washed away
