

Journey Is Destination

Hungry Ghosts

Take time to live
Take time to love
Take time to live
Take time to love

It's nice to see old friends
The summers gone its Christmas again
The older that I get I realize
life is meant to be enjoyed

Since I met you I know
I love you so much baby
Since I met you I know
I love you so much baby

Take time to live
Take time to love
Take time to live
Take time to love

Working for five months
I've realized what I want to do with life
Be happy with what you have
The journey is the destination

Since I met you I know
I love you so much baby
Since I met you I know
I love you so much baby
