

Red Hot Kinda Love

Christina Aguilera

Lets fly in the day
When we can do this all again
I'll be there
Just tell me where
Oh I got a crush
Feeling like fifteen again
I wont lie
Boy I'm on fire So can you cool me down
Oh, me down
Oh, right now (oh yeah)
So can you cool, me down
Oh, me down
Oh, yeah
Oh baby right now
La la la la Oh baby I'm burning up
I wasn't trying to fall for ya
Oh la la la la la
Oh baby I'm burning up
You got that red hot kinda love
(Oh yeah) one more time I don't know the time
It could be day it could be night
But it's alright 'cause your all mine
Oh I must be crazy
'Cause I only just met you baby
But it feels like I've known you all my life So can you cool me down
Oh, me down
Oh, right now (oh yeah)
So can you cool me down
Oh, me down
Oh
Oh baby right now
La la la la la
Oh baby I'm burning up
I wasn't trying to fall for ya
Oh la la la la
Oh baby I'm burning up
You got that red hot kinda love One more time
I feel a little shy
'Cause you're my kinda guy

Oh I la la
Like it like it
La la like it like it
I feel a little shy
A little girlie don't know why
Oh la la like it like it
La la like it like it
La la la la Oh baby I'm burning up
I wasn't trying to fall for ya
Oh la la la la la
Oh baby I'm burning up
You got that red hot kinda love
La la la la la
Oh baby I'm burning up
I wasn't trying to fall for ya
La la la la la
Oh baby I'm burning up
You got that red hot kinda love
