Fly

(Opening dialogue)

1st Verse

When the soul meets the mind / recline and unwind / reminisce on the time / I wrote my first rhyme / just a shorty trying to fit in / many doors to get in / made many mistakes / lots of bullshit Iâ€™ve been in / reflect and improve / I cruise over the memories / relying on beats, the metaphors and similesâ€™ / acknowledge my enemies / embrace my fam / thankful everyday that I walk this land / for breath and life / yes I bless the mic / meditate to handle the stress in sight / yes the best in sight / get your lessons right / and stand firm / yes donâ€™t confess the strife and justâ€¦

CHORUS X2

Stand strong and fly, fly, fly
Keep the faith and fly, fly, fly
Help each other to fly, fly, fly
Cause its all on you and I, I, I

2nd Verse

This game is loved / no fame above / the blood of hip-hop what Iâ€™m thinking of / Iâ€™m a certified emcee / cause hip hop is in me / known for the flows / and beats I have plenty / the hottest of the century / dreaminâ€™ / nah pinch me / for greater reasons why the Gods sent me / Iâ€™m here to bring honor right back to the game / and keep it on fire / cant reduce my flame / I speak on greater things / than material gain / and I guide my people / keep them all in lane / I keep them all in line / as I spit these rhymes / this music my safe haven during troubling times

CHORUS X3

Stand strong and fly, fly, fly
Keep the faith and fly, fly, fly
Help each other to fly, fly, fly
Cause its all on you and I, I, I

3rd Verse

True freedom comes spiritually / my soul refined / I renovate my mind / as I move through time / as I grow and move / gotta show and prove / and broadcast my talent like the evening news / too big for a box / cant box me in / take it back to the roots / where hip-hop begins / where the flow is sweet / and the beat unique / looking for something real / then its I you seek / I spit fire the heat / lava covers the street / and climbing the mountain to the

top of the peak / where my ancestors meet / great spirits they speak / this is my beliefs where I find relief

CHORUS X4

Stand strong and fly, fly, fly
Keep the faith and fly, fly, fly
Help each other to fly, fly, fly
Cause its all on you and I, I, I
