

# New Blood

## Ben Sims

Don't look back on your lostDays of burning down the ground  
From where you standDon't count out on your backThe ashes of your last  
Destroyed heirloomWhen you can't chooseYour own worst enemyAnd the years proveThe chosen one is  
youDon't look back on your lostYears of tragedy you'd  
Just assume forgetAnd through these scars  
I pump new blood(Alas... new blood) my life support systems are gone  
(Alas... new blood) Alas...still standingAnd I'm on my ownNew Blood - Old Skin...
