Raid!

Vaux

On the interstate, my last ride
Change the lanes and don't look back
Blur the view ahead
Cross the lines
I can't be caught like this
Said you found out, but you're afraid of us
It's a raid now and you're a part of this bust
You said you found out that it's a raid now
See how it goes down when their alarm sounds
I know they're coming for you
I know they're coming for you
Lay the gun and bullets at my side
Take the money for it
I know they're coming for you
I know they're coming for you
Said you found out, but you're afraid of us
It's a raid now and you're a part of this bust
Cuffs are useless
This sounds so contagious
It's a raid now and you're a part of this bust.
