Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?You wont get very far, you wont get far
You wont get very far, you wont get far
You wont get very far, you wont get far
You wont get very far, you wont get farHere it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?Here it is
Why are you waiting for?
What you were looking for
That you find, that you find right here?
