

Beaching

All The Luck In The World

And there you stay
As your boat was sold away
Sold as silver so they say
It's been a long time And in the rain
I'll keep your stories and your keys
Your songs of calm and raging seas
Make me feel like I'm
Cause I've got nowhere else to be now darling
Take everything to sea
Cause we've got everything we need here darling Your daughter
Gone with the water rise
It's easy to romanticise
The other side Take all my subtlety
Cause I've got nowhere else to be now darling
Take everything to sea
Cause we've got everything we need here darling It's fall down South
And that stays true
But I'm no April fool for you
