

Clock Runs Out

Allstar Weekend

tick tock its over
i know that time is running out
tick tock going no where
i know your time is running
(Time is running out!)

You sure seem sorry to me now
you look good from the outside
but i know your not cool
you played me made me believe that
you'll be there when i'd need you
now i know thats not true
you fooled me
and im no fool!

Chorus:

you need to take time, take time
to clean up the mess
its all for the best
i think that you should grow up, grow up
and figure it out
what were all about
before the clock runs out
im finally living my life now
im breathing like im happy
im feeling good again
you lost your way lost your touch now
youve got no values
you were never a friend
you fooled me

and im no fool!

chorus:

you need to take time, take time
to clean up the mess
its all for the best
i think that you should grow up, grow up
and figure it out
what were all about
before the clock runs out
tick tock its over!

i know your time is running out
tick tock going no where
i know your time is running, time is running out!
you sure seem sorry to me now
you look good from the outside
but i know your not cool!

chorus:

you need to take time, take time
to clean up the mess
its all for the best
i think that you should grow up, grow up
and figure it out
what were all about
until the clock runs out
(x2)
Until the clock runs out
