

# Guilty of Everything

## Nothing

Chasing Sundays  
Round and Round  
Blind steps off of Moons  
And Stars are pleading  
Will you catch us falling down?  
Rejoice Rejection  
Without a sound  
Camouflage on open wounds  
Dissecting sympathies  
Curtains down come take a bow  
And Gods Solutions  
Are never found  
In Divinity there's ecstasy  
Make Love in echoes  
Cling to the Souls exhausted clean  
Ill wait for you  
To go away  
Again  
I will push  
You far away  
I've given up  
But you shoot anyway  
I'm guilty of  
Everything  
My hands are up  
I'm on my knees  
I don't have a gun  
You can search me please  
I've given up  
But you shoot anyway  
I'm guilty of  
Everything
