Mannequin

Twisted Method

Played I've been fuckin played
I've been fuckin played I've been fuckin played
Changed yeah you haven't changed yeah
you're still the same you haven't fucking changedQuit comin around like you act hard.
You sick bitch, Oh my GOD!
I know he's comin for you
I feel this it's way in my mind
I find I can't hide
You fuckin bitch! Just get away from me
And you know everything'll be OK
Oh, I feel bitter inside knowing that I just cannot get away
From this pain that you're causing me
I could never love someone who's so fakeWe do it just like thisYou say you know all about me
You know the inside of my world
Then why the fuck do I feel so coldChorusWe do it just like thisYou say you know all about me
You know the inside of my world
Then why the fuck do I feel so coldI see right through your plastic face.
Which I love to degrade
I know he's cummin on you
I can't wait until you fuckin bleed again and again
yeah you fuckin bitch.
Just get away from me.
And you know everything'll be OK.
Oh, I feel bitter inside knowing that I just cannot get away.
From this pain that you're causing me.
I hope he beats your guts until you bleed!ChorusGet it get it
Get it get it
