

# A Bit Of Wind

## Fruit Bats

It takes a little shake up from the rift  
It takes a bit of wind to get you to lift  
It takes sandstorms and signs from God  
It takes a piece of grass floating on a breeze  
It takes a plastic bag stuck up in a tree  
It takes cold fronts and sackcloth skies  
It takes leviathans down in the abyss  
The hidden messages of the things that you missed  
It takes mouthfuls of Niagara Falls
