

Hassle Free Harmony

Her Space Holiday

On my way to an early grave
I stopped some where along the way
In hopes to learn my name We all have lives that we must leave
Some are great and some are weak
I'm somewhere in between I used to think the world was round
Until I filled my head with sound
And pictures of a place Where I was good and wrong was right
And nothing kept me up at night
Except the songs we made We all have lives that we must leave
Some are great and some are weak
I'm somewhere in between I'm somewhere in between
I'm somewhere in between
I'm somewhere in between
