

Some Say I'm Not

[Mason Jennings](#)

To look at a baby youve gotta be brave
In the black of his eye is your own grave
And something darker you wanna touch
It must be love 'cause it hurts so much Love, love, love, love I've been to Egypt, Ive been to Rome
I was a young man when I left my home
Looking for something I couldnt find
Now Im back where I started, it was here all the time Time, time, time, time Out of the darkness into the light
I had it wrong, you made it right
I had it wrong, you made it wrong
Same old story, same old song
Same old Song, song, song, song Some call me Allah, some call me Tao
Some call me Buddha, some call me now
Some call me Jesus, some call me God
Some say Im real, some say Im not
