## Some Say I'm Not

## **Mason Jennings**

To look at a baby youve gotta be brave In the black of his eye is your own grave And something darker you wanna touch

It must be love 'cause it hurts so muchLove, love, love, loveI've been to Egypt, Ive been to Rome

I was a young man when I left my home

Looking for something I couldnt find

Now Im back where I started, it was here all the timeTime, time, time, timeOut of the darkness into the light

I had it wrong, you made it right

I had it wrong, you made it wrong

Same old story, same old song

Same oldSong, song, song, songSome call me Allah, some call me Tao

Some call me Buddha, some call me now

Some call me Jesus, some call me God

Some say Im real, some say Im not
