

Games for Days

[Julian Plenti](#)

In your eyes, I am magnified
I peep your sides, I do fantasize
I make your mind, and pretend that you've lied
I take it all the way, I take it all the way
Cause you taste just like the river

Baby, you've played my heart,
But the way that you've played, it was art

Games for days, where did you find them?
Games all day

In your eyes, I'd be televised,
Great big lies, as the vulture flies,
I meditate to grow wise, I declassify
I take it all the way, I take it all the way
Cause you taste just like the others

Baby, you've played my heart,
But the way that you've played, it was art

(You played my heart, today)
Cause babe, you played my heart,
(But the way you played, it was art)
But the way that you play, it was art

Games for days, where did you find them?
Games all day, we're thankful to find them
Games all day, help me to shine them
Play all day, I won't let the party die

Cause this is how we learn,
(This is amazing)
Oh, this is how we learn,
(This is amazing)
Oh, this is how we learn,
(This is amazing)
