## My Big Mistake

## **Delta Goodrem**

Amazing fairytale that had come true

Mr reliable romantic was you

Blinded misguided in the arms of love

Just 'cause it suited the both of usThen it all went wrong

I'm the one to blame

Taking you for granted

In so many ways

When I look back now

How can I ever forget

You make me so happy

The day we met[Chorus]

How could something so magic

Become something so tragic

Right before my eyes

Two separate lives

Every second was a precious moment

Now I'm thinking about the path I've chosen

Wish I could un-make my big mistake

My big mistakeCommunication had broken down

This situation was out of our hands

Well my hands

You've got to please understand

That I was too young, yes just

Too young for that

I guess it all went wrong

And I'm the one to blame

But what I would give to have you back again The days the weeks the months

The years that we have wasted

I'm sorry

I still love you

I don't expect a call 'cause my apology's belated

I'm sorry

And I miss you all my life[Chorus]
