

Bend

Ria Mae

All night, straight ahead at the headlights
Scream at me baby, yellin' like I ruined your life
All night with my back against the wall
Push me, push me, I'll never fallBaby
This mistrust is contagious
I'm going crazy
Lookin' for somethin' to save usYou can try and bend my heart, but it won't break
You can change my clothes, you can change my name
Break, break, break out of these chains
I can bend, bend, bend so far, but I won't break
Disappear in the middle of the night
Shame, baby, when it's good, it's so right
I'm tired of it, now, start buildin' all these walls
Hitch 'em now hitch it, then we fall off, ohBaby
This mistrust is contagious
I'm going crazy
Lookin' for somethin' to save usYou can try and bend my heart, but it won't break
You can change my clothes, you can change my name
Break, break, break out of these chains
I can bend, bend, bend so far, but I won't breakYou hold on to my heart so hard
And I just follow, just spin me around
You fill me up with fear so far
That I can't swallow, I can't make a sound
You can try and bend my heart, but it won't break
You can change my clothes, you can change my name
Break, break, break out of these chains
I can bend, bend, bend so far, but I won't break
You can try and bend my heart, but it won't break
You can change my clothes, you can change my name
Break, break, break out of these chains
I can bend, bend, bend so far, but I won't break
