

Ty Cobb (Austin, TX , Nov 27th 1996)

Soundgarden

I'm sittin' in a magic hat
With smoke and mirrors
And tire rubber fires
Watch me disappear
What made it slow you down
Sucking on a ball and chain
Another motherfucker goes down the drain
Hard headed fuck you all
Just add it up to the hot rod death toll Sick in the head sick in the mouth
And I can't hear a word you say
Not a bit, and I don't give a shit
I got the glass, I got the steel
I got the love to hate
All I need is your head on a stake
Hard headed fuck you all
Just add it on the hot rod death toll
