

# The Side You Never Get To See

## The Frames

If you come, come alone  
Please don't take anyone else  
'Cause we're never alone  
And tonight I want you for myself  
Take it back, take it back  
Those words that you never can help And the side you'll never get to see  
Is the part I keep from everyone  
And the side you'll never get to reach  
Is alive, is alive Will you dance monkey dance?  
Don't have me repeating myself  
'Cause you came here by chance  
And I'll knock you right down again And the side you'll never get to see  
Is the part I keep from everyone  
And the side you'll never get to reach  
Is alive, is alive
