

# Love It When You Call

## The Feeling

I found a switch, you turned it on  
I hit the ditch, you carried on  
I was so near, now you're so far  
Are you quite sure, just who you are?

Oh I-I-I-I-I, know you could choose a friend but you don't seem to have the time  
Oh I-I-I-I-I, I wonder if you ever get to say what's on your mind

Well take a little time  
Come on, take a little time

I love it when you call  
I love it when you call  
I love it when you call  
But you never call at all  
Say what's the complication  
It's only conversation  
I love it when you call  
But you never call at all, whoa-oh  
(He loves it when you call)  
(He loves it when you call)

Remember me, I used to be  
Your best time buddy that you couldn't wait to see  
But gettin' old, it takes a toll  
And hearts getting broken lead to people growin' cold

Oh I-I-I-I-I, I'm thinking were the kind that's got a tale on either side  
Oh I-I-I-I-I, I'm gonna be the one who makes you stop and realize

You could have it all  
Yeah, we should have it all

I love it when you call (He loves it when you call)  
I love it when you call (He loves it when you call)  
I love it when you call  
But you never call at all  
So what's the complication  
It's only conversation  
I love it when you call

But you never call at all, whoa-oh  
(He loves it when you call)  
(He loves it when you call)

Now I wonder where you've been  
Yeah I wonder who you've seen  
Now I hope you find your dream  
When you do I really hope its all it seems

I love it when you call  
I love it when you call  
I love it when you call  
But you never call at all  
Say what's the complication  
It's only conversation  
I love it when you call  
But you never call at all, whoa!
