I Feel Lonely

Dropline

Once I should be careful of myself
It's just the truth and nothing else
What's the point to return?
What's the point ?If I sit watching the furniture
And bleed
Smile if you can depend on me
To be lost in this womb
To be lost'Cause anyway I say these words are taken
And I'm on my own again with you
Say what you got
I feel lonely
I feel lonelyIt's dark
I don't need your help to fall apart
I could feel stupid in the dark
It's all right to be here
It's all right'Cause anyway I wanna say these words are taken
And anything I wanna bring will surely make it
And then I'm on my own again with you
Say what you got
I feel lonely
I feel lonely'Cause anyway I wanna say these words are taken
And anything I wanna bring will surely make it
And then I'm on my own again with you
I say what you got
I feel lonely
I feel lonelyI feel lonely
I feel lonely
(I feel)
(I feel)
(I feel)
