Inside Outside Woman Blues #3

Gov't Mule

Two kinds of women in this world
There's naughty and there's nice
Any man will tell you that one is a virtueAnd the other is surely a vice
Inside woman drive you out your mind
But she with you through thick and thin
Outside woman make you feel so fineBut you don't know where she's been
And you know that's right
You know that's right
You know that's rightInside woman drive you out your mind
Outside woman ready anytime
Inside woman takes it when she canBut you better give it to her
'Cause it won't be long
Till she'll need a outside manTwo kinds of cheating men in this world
Ones that lie and ones that say they don't
Oh any woman will tell you that a man's a dog
Betray his master for a boneBut even the lowest down dog of a man
Though he's a fool and a liar
At the end of the day
Wants somebody to keep him warmSomebody to keep him warm
Not set him on fire and you know
What I'm talking aboutYou know that's right
You know that's right
Know that's rightInside woman drive you out your mind
Outside woman ready anytime
Inside woman takes it when she canBut you better give it to her
'Cause it won't be long
Till she'll need a outside manInside woman drive you out your mind
Outside woman ready anytime
Inside woman takes it when she canBut you better give it to her
'Cause it won't be long
Till she'll need a outside man
