

One Step At a Time

ELO

Talk to me don't leave me wondering
Talk to me let's see what tomorrow brings
And then when you remember
Things will be so much better
Talk to me

Talk to me don't give me the silent treatment
Talk to me cause I'm not in on the agreement
And then you might discover
One's better than the other
Talk to me

One step at a time I'm trying to get to you babe
One step at a time you're gonna talk to me

One step at a time I'm trying to get to you babe
One step at a time you're gonna talk to me

Talk to me through the damage done is so sad
Talk to me with the sadness in your eyes
Everything will soon be better
You'll soon begin to realize
Come on and talk to me

One step at a time I'm trying to get to you babe
One step at a time you're gonna talk to me

One step at a time I'm trying to get to you babe
One step at a time you're gonna talk to me
