

# I Want Nothing (Vincent Markowski Wokalny Dub)

## The Black Ghosts

I want nothing but the love of the next stranger  
Who walks through that door  
And I want nothing but to dissolve in the night  
And to feel direction no more  
And I want nothing, no, I want nothing  
No, I want nothing, no, I want nothing  
And I want nothing but to follow you  
'Til we can walk no more  
And I want nothing but to cut away  
Until I find the core  
And I want nothing, no, I want nothing  
No, I want nothing, no, I want nothing  
No, I want nothing, no, I want nothing  
No, I want nothing, no, I want nothing
