

Suddenly

[k.d. lang](#)

So peculiar you're way too familiar
Oh and so hard to ignore
But somehow it makes sense
That this acquaintance
Keeps me coming back for more Then suddenly you got me
You got me thinking I might have been here before
My only distraction is this attraction
That I'm dying to explore Then suddenly you got me
You got me thinking I might have been here before Suddenly I remember you with me
Truly you're someone worth waiting for Suddenly you got me
You got me thinking I might have been here before
You got me thinking I might have been here before
