

# Rossiya

## Pilgrim

United forever in vast, endless space  
created in struggle by unhappy race  
    we're sunrise of freedom  
    we're frozen in ice  
united forever in great Russia's embrace. From the Arctic Circle  
    To the southern seas  
        deserted forests  
        neverending steppes  
    The unbreakable union  
        of fraternal states  
united forever in Great Russia's embrace Slavsy, Otechestvo nashe svobodnoye,  
Slavsy, strana moya! My gordimsya toboy! The rise - the prisoners of starvation  
    The rise - the damned of the Earth  
        let's get them together  
        let's break us free  
        the world is changing  
At it's core long live great Russia's motherland  
    built by the people and their mighty hands  
        long live young nation  
        united and free  
        shining in glory  
for all men to see Slavsy, Otechestvo nashe svobodnoye,  
Slavsy, strana moya! My gordimsya toboy!
