

Rhythm of Life

Klaxons

This is the eye, this is the eye, this is the eye in our time
This is the eye til the end, that we will divide
We will be balling 'and it's hard and getting,
We ball most every nights
Cuz your inspiration, we run ...
Now baby feel my vibes
I could realize
It moves like he stays apart
The sound is like ...

This is the eye, this is the eye, this is the eye in our time
This is the eye til the end, that we will divide
...cuz it's the destination, that be on the rhythm of life
rhythm of life, rhythm of life, rhythm of life
rhythm of life, rhythm of life, rhythm of life
I travel til the end of town

To show you something that I thought that I found
I saw it knock it, knock in front of my eyes
This is the eye, this is the eye, this is the eye in our time
This is the eye til the end, that we will divide
This is the eye, this is the eye, this is the eye in our time
This is the eye til the end, that we will divide
This is the eye, this is the eye, this is the eye in our time
This is the eye til the end, that we will divide
