Always

The Butterfly Effect

Always
I can feel you.. against my skin,
I feel you...
Like the poison seeping into
Into my veins, numb with the pain
Sick and guilty
is The sadness you've given to me...
I can feel you... Always...
I will learn too late
It's too late.. to change
It is too late..
Still these strange frustration stains
Burn my skin when nobody needs me....
This sadness.. Forced to feel
Like poison, I'll never heal
I will learn too late

It's too late.. to change
It is too late..
Still these strange frustration stains
Burn my skin when nobody needs me....
It's always, you're always
I'm always and I
I need you always.. I need you always
It's always, you're always,
I'm always and I
I'm always... Always...
Always...
I am with you always
I am with you always
I am with you always
I am with you always
Always.. Always.. Always.. Always..
