

Elimination Dancing

Bow Wow Wow

This is a fighting dance
And the first move is get off the floor? if you're a pig [?]
[?] And you get a point, you don't like fish, get out of this [?]
[?] And a bored girl [?], looking smart, "tear him apart"
Elimination dancing
Rule one, knock ourselves out
Rule two, giddy up, giddy up, knock out (Punch up)
Insist, persist, knock out
Resist, like this, knock out
You're gotta beat them all, you're gotta beat them all, knock out
The harder they fall, knock out Use your muscles And the fourth rule, go sit down if you wear a frown
And the boy who told, clean his teeth, celery
And a golden necklace, your out, you're worthless
Elimination dancing Rule seven, pray, pray, pray
Rule eight, postulate, knock out
Insist, persist, knock out
Resist, like this, knock out
You're gotta beat them all, you're gotta beat them all, knock out
The harder they fall, knock out (Start on my signal, [?] we're getting' full flinger [?])
Use your muscles (Finish this, [?] leg up [?])
'Cause it's with your muscles that you most easily obtain knowledge (So stop dreaming)
Don't stop dancing (Banzai, banzai)
This is a fight, a fight to the finish Rule nine, danger sign
Rule ten, you gotta beat your friend, you gotta beat your friend
I'm ashamed of you, it's not the end, it's not the end
Any boy goes, [?] still alive, in there [?], knock out
Insist, persist, knock out
Resist, like this, knock out
You're gotta beat them all, you're gotta beat them all, knock out
The harder they fall, knock out
Insist, persist, knock out
Resist, like this, knock out
You're gotta beat them all, you're gotta beat them all, knock out
The harder they fall, knock out
