Blaze

Strike Anywhere

We rise like lions after slumber
in unvanquishable number
Shake these chains to earth like dew
You are many, they are few!Without a voice to question the hollow aggression
of public perception through all this time we rise
The human solution!We're amplified, adrenaline
another flag's shadows covers us again
and on these steps, take back our days
and when we go go out in a blaze
We'll go go out in a blaze
Human pollution!In the people's war behind the writing on the wall
In the people's war searching, spoiling for a fall
searching, spoiling for a fall
it's written in our blood so don't misdirect your rage
don't misdirect your rage
don't misdirect your rage
don't misdirect your rage
In the human solutionWe're amplified, adrenaline
another flag's shadows covers us again
and on these steps, insurgent days
so when we go go out in a blaze
We go go out in a blaze
We'll go go out in a blaze
