De-Luxe

Lush

I've been waitin' on the slide
Suggest I open wide
No incentive to hide
Happy coursing through my veins
Don't even know my name
When I'm up you're coming down
When I'm up you're coming downInside of me, some sight to see
Some sight to feel our earthy bedWhen we're wrapped in polythene
What's that supposed to mean?
Paper flowers bring me luck
No birds in sight I fear
Stick, sticks in you my dear
When I'm up you're coming down
When I'm up you're coming downSome say I'm vague and I'd easily fade
Foolish parade of fantasyDrink in your eyes, drink in your sighs
Grass in my thighs my aching legsWhen we're wrapped in polythene
What's that supposed to mean?
Paper flowers bring me luck
No birds in sight I fear
Stick, sticks in you my dear
When I'm up you're coming down
When I'm up you're coming downInside of me, some sight to see
Some sight to feel our earthy bedDrink in your eyes, drink in your sighs
Grass in my thighs my aching legs
